### Rare Breed Pork:

We only keep traditional rare breed pigs which are kept outdoors in large enclosures with comfortable well insulated arks. Our pigs have the best, most natural and stress free life we can possibly give them.

We feed a mixture of GM free pig feed, fresh vegetables, hay, silage and as a special treat ice-cream (Rum and Raisin is their favourite).

### Rare Breed Sausages (Wheat & Preservative Free)

We are very passionate about our food and especially our sausages and so our rare breed sausages are made with 100% natural casings, whole prime cuts of meat and only the finest fresh ingredients, locally sourced wherever possible.

Unlike most sausage makers who only use the cheap cuts of meat when making their sausages or substitute a percentage of other meats, when we make sausages we use all of the prime cuts from the animal concerned including the leg, shoulder, loin, belly and hand. This gives a beautifully balanced flavour and texture and ensures that you will keep coming back for more! Most importantly there are:

NO artificial flavourings, colourings or preservatives (No E Numbers)  
NO mechanically recovered meat or trimmings  
NO monosodium glutamate
